A square divided into four equal quadrants by a horizontal red line and a vertical red line. The top-left quadrant is shaded light blue, and the bottom-right quadrant is shaded light orange. The other two quadrants are white.A square divided into four quadrants by a horizontal red line and a vertical red line. The top-left quadrant is shaded light blue, and the bottom-right quadrant is shaded light orange. The other two quadrants are white.A square divided into four equal quadrants by a horizontal red line and a vertical red line. The top-left quadrant is shaded light blue, the top-right is light green, the bottom-left is light orange, and the bottom-right is light pink.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by a black border on the left and top, and a red border on the right and bottom. The grid is divided into four quadrants by a red vertical line and a red horizontal line.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by a black border on the left and top, and a red border on the right and bottom. The grid is divided into four quadrants by a red vertical line and a red horizontal line.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by a black border on the top, left, and right sides, and a black border on the bottom side. The grid is divided into four quadrants by a vertical red line and a horizontal red line. The vertical red line is located at the center of the grid. The horizontal red line is located at the center of the grid. The grid is empty of any text or other markings.A 2x2 grid with red lines. The grid is formed by a horizontal red line and a vertical red line intersecting at the center. The lines are thin and red, set against a white background. The grid is used for writing answers to the questions.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is light blue. The bottom-left square is light blue. The bottom-right square is light blue. The grid is defined by a black border on the top, left, and right sides, and a red line on the bottom side. The grid is divided into four quadrants by a vertical red line and a horizontal red line.A diagram showing a square divided into four quadrants by a horizontal red line and a vertical red line. The top-left quadrant is shaded light blue. The top-right quadrant is shaded light green. The bottom-left quadrant is shaded light orange. The bottom-right quadrant is white.A diagram showing a square divided into four quadrants by a horizontal red line and a vertical red line. The top-left quadrant is shaded light blue, and the bottom-right quadrant is shaded light orange. The other two quadrants are white.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by red lines.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by red lines.

A diagram showing a square divided into four quadrants by a horizontal red line and a vertical red line. The top-left quadrant is shaded gray.

A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by red lines.

A square divided into four quadrants by a horizontal red line and a vertical red line. The top-left quadrant is shaded light blue. The top-right quadrant is shaded light green. The bottom-left quadrant is shaded light orange. The bottom-right quadrant is white.

A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is empty. The top-right square contains a small red dot in the center. The bottom-left square contains a small red dot in the center. The bottom-right square contains a small red dot in the center.
